This SDS is prepared in accord with the SWA document "Preparation of Safety Data Sheets for Hazardous Chemicals - Code of Practice" (Feb 2016).

# SAFETY DATA SHEET

## 1. Identification of the material and supplier

Product name	: Air Wick Pure Natural Wonders Candle - Tropical Great Barrier Reef
SDS # Formulation # Supplier	<ul> <li>D8383707 v1.0L</li> <li>3165320 v1.0</li> <li>AUSTRALIA RB (Hygiene Home) Australia Pty Ltd ABN: 58 629 549 506 680 George St , Sydney, NSW 2000 Tel: +61 (0)2 9857 2000</li> </ul>
	NEW ZEALAND RB (Hygiene Home) New Zealand Limited Company number: 7097753 2 Fred Thomas Drive, Takapuna Auckland , New Zealand 0622 Tel: +64 9 484 1400
Poison Information contact:	: Australia - 13 11 26 New Zealand - 0800 764 766 or 0800 POISON
Material uses	: Air care, continuous action (solid and liquid)
Product use	: Consumer use

# Section 2. Hazard(s) identification

Classification of the<br/>substance or mixture: NoHSNO ClassificationNo

: Not classified.

Not classified.

<u>GHS label elements</u>		
Signal word	: No signal word.	
Hazard statements	No known significant effects or critical hazards.	
Precautionary statements		
General	: Keep out of reach of children. If medical advice is needed, have product container or label at hand.	
Prevention	: Not applicable.	
Response	: Not applicable.	
Storage	: Not applicable.	
Disposal	: Not applicable.	
Supplemental label elements	: Not applicable.	

Date of issue

### Section 2. Hazard(s) identification

· · · ·		
Additional information	1	No known significant effects or critical hazards.
Recommendations	1	No known significant effects or critical hazards.
Recommendations	:	ANZ Label according to the Poison Standard (SUSMP) Australia
		CAUTION: KEEP OUT OF REACH OF CHILDREN AND PETS. Avoid contact with eyes. May cause an allergic reaction in some individuals.
		FIRST AID: For Advice, contact a Poisons Information Centre. (Phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. If swallowed, seek medical advice immediately and show this container or label. Glass will be hot during and after use. Do not use if the glass is damaged. The lid should not be used to extinguish the candle.
Other hazards which do not result in classification	:	None known.

Section 3. Composition and ingredient information

Substance/mixture

: Mixture

#### Other Non-hazardous ingredients to 100%

Occupational exposure limits, if available, are listed in Section 8.

#### Section 4. First aid measures

#### Description of necessary first aid measures

Description of neocostar	mot did mododroo
Eye contact	<ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.</li> </ul>
Inhalation	<ul> <li>Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.</li> </ul>
Skin contact	<ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.</li> </ul>
Ingestion	: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed

Potential acute health effect	<u>ts</u>			
Eye contact	: No known significant effects or critical hazards.			
Inhalation	: No known significant effects or critical hazards.			
Skin contact	: No known significant effects or critical hazards.			
Ingestion	: No known significant effects or critical hazards.			
Over-exposure signs/symptoms				
Eye contact	: No specific data.			
Inhalation	: No specific data.			
Skin contact	: No specific data.			
Ingestion	: No specific data.			

**Date of issue** 

## Section 4. First aid measures

Indication of immediate medical attention and special treatment needed, if necessary				
Notes to physician	: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.			
Specific treatments	: No specific treatment.			
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.			

See toxicological information (Section 11)

### Section 5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: None known.
Specific hazards arising from the chemical	: No specific fire or explosion hazard.
Hazardous thermal decomposition products	: No specific data.
Special protective actions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipments for fire- fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

Personal precautions, protec	tiv	e equipment and emergency procedures
For non-emergency personnel	:	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
For emergency responders	:	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
Environmental precautions	:	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Methods and materials for co	nt	ainment and cleaning up
Small spill	:	Move containers from spill area. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.
Large spill	:	Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment.

Date of issue	: 09/02/2022

Date of issue

### Section 6. Accidental release measures

See Section 13 for additional waste treatment information.

### Section 7. Handling and storage

g	
:	Put on appropriate personal protective equipment (see Section 8).
:	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
:	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.
	:

# Section 8. Exposure controls and personal protection

: 09/02/2022

Control parameters		
Australia		
Occupational exposure limit None.	<u>ts</u>	
New Zealand		
Occupational exposure limit	ts	: No exposure standard allocated.
Appropriate engineering controls	:	Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
Environmental exposure controls	:	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.
Individual protection measu	<u>res</u>	
Hygiene measures	:	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Eye/face protection	:	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
Skin protection		
Hand protection	:	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
Body protection	:	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Other skin protection	:	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

# Section 8. Exposure controls and personal protection

Resp	iratory	protection
------	---------	------------

: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

### Section 9. Physical and chemical properties

Appearance		
Physical state	:	Solid. [Candle]
Color	:	Wax white [Light]
Odor	:	Fragrant.
Odor threshold	:	Not available.
рН		Not available.
Melting point	:	Not available.
Boiling point	1	Not available.
Flash point	:	Closed cup: >140°C (>284°F)
Evaporation rate	1	Not determined
Flammability (solid, gas)	1	Not available.
Lower and upper explosive	:	Not available.
(flammable) limits		
Vapor pressure	÷	Not available.
Vapor density	1	Not available.
Relative density	4	Not available.
Solubility	:	Not available.
Solubility in water	1	Not available.
Partition coefficient: n-	:	Not available.
octanol/water		
Auto-ignition temperature	÷	Not available.
Decomposition temperature	÷	Not available.
Viscosity	4	Not available.
Flow time (ISO 2431)	;	Not available.

### Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: No specific data.
Incompatible materials	: No specific data.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

# Section 11. Toxicological information

Information on toxicologica	al effects						
Acute toxicity							
Not available.							
<b>Conclusion/Summary</b>	: Based on available data, the classification criteria are not met.						
Irritation/Corrosion							
Not available.							
Conclusion/Summary							
Skin	: Based on available data, the classification criteria are not met.						
Eyes	: Based on available data, the classification criteria are not met.						
Respiratory	: Based on available data, the classification criteria are not met.						
Sensitization							
Not available.							
Conclusion/Summary							
Skin	: Based on available data, the classification criteria are not met.						
Respiratory	: Based on available data, the classification criteria are not met.						
Mutagenicity							
Not available.							
Conclusion/Summary	: Based on available data, the classification criteria are not met.						
<b>Carcinogenicity</b>							
Not available.							
Conclusion/Summary	: Based on available data, the classification criteria are not met.						
Reproductive toxicity							
Not available.							
Conclusion/Summary	: Based on available data, the classification criteria are not met.						
<u>Teratogenicity</u>							
Not available.							
Conclusion/Summary	: Based on available data, the classification criteria are not met.						
Specific target organ toxic							
Not available.	<u>, (</u>						
Specific target organ toxic	sity (repeated exposure)						
Not available.							
Aspiration hazard Not available.							
NUL avallable.							
lafa maatian an tha libaha							
Information on the likely routes of exposure	: Not available.						
Potential acute health effect	ts						
Eye contact	: No known significant effects or critical hazards.						
Inhalation	: No known significant effects or critical hazards.						
Skin contact	: No known significant effects or critical hazards.						
Ingestion	: No known significant effects or critical hazards.						
	nysical, chemical and toxicological characteristics						
Eye contact	: No specific data.						
Inhalation	: No specific data.						
Date of issue	: 09/02/2022						

# Section 11. Toxicological information

	<u> </u>	gioar mornation			
Skin contact	:	No specific data.			
Ingestion	:	No specific data.			
Delayed and immediate effects and also chronic effects from short and long term exposure					
Short term exposure					
Potential immediate effects	:	Not available.			
Potential delayed effects	:	Not available.			
Long term exposure					
Potential immediate effects	:	Not available.			
Potential delayed effects	:	Not available.			
Potential chronic health eff	<u>ect</u>	<u>s</u>			
Not available.					
<b>Conclusion/Summary</b>	:	Based on available data, the classification criteria are not met.			
General	1	No known significant effects or critical hazards.			
Carcinogenicity	:	No known significant effects or critical hazards.			
Mutagenicity	:	No known significant effects or critical hazards.			
Teratogenicity	:	No known significant effects or critical hazards.			
Developmental effects	:	No known significant effects or critical hazards.			
Fertility effects	:	No known significant effects or critical hazards.			

#### Numerical measures of toxicity

#### Acute toxicity estimates

Not available.

**Toxicity** 

# Section 12. Ecological information

Not available.		
Conclusion/Summary	:	Based on available data, the classification criteria are not met.
Persistence and degradability		
Not available.		
Bioaccumulative potential		
Not available.		
<u>Mobility in soil</u>		
Soil/water partition coefficient (Koc)	:	Not available.
Other adverse effects	:	No known significant effects or critical hazards.

#### Section 13. Disposal considerations

**Disposal methods** 

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

### Section 14. Transport information

· · · · · · · · · · · · · · · · · · ·				
	ADG	ADR/RID	IMDG	ΙΑΤΑ
UN number	Not regulated.	Not regulated.	Not regulated.	Not regulated.
UN proper shipping name	-	-	-	-
Transport hazard class(es)	-	-	-	-
Packing group	-	-	-	-
Environmental hazards	No.	No.	No.	No.

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available. to IMO instruments

# Section 15. Regulatory information

Standard for the Uniform Scheduling of Medicines and Poisons

Not scheduled		
Model Work Health and Safety	/ F	Regulations - Scheduled Substances
No listed substance		
Australia inventory (AICS)	:	All components are listed or exempted.
New Zealand Inventory of Chemicals (NZIoC)	:	All components are listed or exempted.
HSNO Approval Number	:	Not applicable
Approved Handler Requirement	:	No.
Tracking Requirement	:	No.
