

SAFETY DATA SHEET

Product Name: Finish – Dishwasher Freshener – Lemon and Lime

Section 1 - Identification of The Material and Supplier

Product Name: Finish – Dishwasher Freshener – Lemon and Lime
Product Type: Dishwashing liquid additive.
SDS Number: D0073691-v13.1
Formulation No #0073136
Product Use: Dishwashing liquid additive for household use.

Supplier Details:

Australia: Reckitt Benckiser (Australia) Pty Limited

ABN: 17 003 274 655

680 George Street, Sydney NSW 2000

Tel: +61 2 9857 2000

New Zealand: Reckitt Benckiser (New Zealand) Limited

2 Fred Thomas Drive, Takapuna, Auckland, New Zealand 0622

Tel: +64 9 484 1400

Poisons Information Centre: Australia: Phone 131 126
New Zealand: 0800 764 766 or 0800 POISON

Section 2 - Hazards Identification

Statement of Hazardous Nature

This product is classified as: Not hazardous according to the criteria of SWA.

Not a Dangerous Good according to Australian Dangerous Goods (ADG) Code, IATA or IMDG/IMSBC criteria.

GHS Signal word: WARNING

HAZARD STATEMENT

H227: Combustible liquid.

PREVENTION

P103: Read label before use.

P102: Keep out of reach of children.

P101: If medical advice is needed, have product container or label at hand.

DISPOSAL

P501: Dispose of small quantities and empty containers by wrapping with paper and putting in garbage. For larger quantities, if recycling or reclaiming is not possible, use a commercial waste disposal service.

Emergency Overview

Physical Description & Colour: Green or yellow liquid.

Odour: Characteristic fragrance.

Major Health Hazards: None.

Section 3 - Composition/Information on Ingredients

Ingredients	CAS No	Conc, %
Decanal	112-31-2	2.5-5
Octanal	124-13-0	2.5-5
Distillates (petroleum), hydrotreated light	64742-47-8	2.5-5
3a,4,5,6,7,7a-hexahydro-4,7-methanoinden-6-yl acetate	5413-60-5	<2.5
Nerol	106-25-2	<2.5
Nopyl acetate	128-51-8	<2.5
Various non-hazardous ingredients	secret	to 100

This is a commercial product whose exact ratio of components may vary slightly. Minor quantities of other non hazardous ingredients are also possible.

SAFETY DATA SHEET

Product Name: Finish – Dishwasher Freshener – Lemon and Lime

Section 4 - First Aid Measures

General Information:

You should call The Poisons Information Centre if you feel that you may have been poisoned, burned or irritated by this product. The number is 13 1126 from anywhere in Australia (0800 764 766 in New Zealand) and is available at all times. Have this SDS with you when you call.

Inhalation: First aid is not generally required. If in doubt, contact a Poisons Information Centre or a doctor.

Skin Contact: Irritation is unlikely. However, if irritation does occur, flush with lukewarm, gently flowing water for 5 minutes or until chemical is removed.

Eye Contact: First aid is not generally required. If in doubt, contact a Poisons Information Centre or a doctor. Take special care if exposed person is wearing contact lenses.

Ingestion: If product is swallowed or gets in mouth, do NOT induce vomiting; wash mouth with water and give some water to drink. If symptoms develop, or if in doubt contact a Poisons Information Centre or a doctor.

Protection of first-aiders: No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

Most important symptoms and effects, both acute and delayed

Potential acute health effects

Inhalation : No known significant effects or critical hazards.

Ingestion : No known significant effects or critical hazards.

Skin contact : No known significant effects or critical hazards.

Eye contact : No known significant effects or critical hazards. May cause eye irritation upon direct contact with eyes.

Over-exposure signs/symptoms

Eye contact : No specific data.

Skin contact : No specific data.

Ingestion : No specific data.

Inhalation No specific data.

Indication of any immediate medical attention and special treatment needed

Notes to physician: Treat symptomatically.

Section 5 - Fire Fighting Measures

Flammable Category 4 (GHS), C1 combustible (AS 1940)

Extinguishing media

Suitable extinguishing media: Use an extinguishing agent suitable for the surrounding fire.

Unsuitable extinguishing media: None known

Special hazards arising from the substance or mixture

Hazards from the substance or mixture: Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.

Hazardous thermal decomposition products: Decomposition products may include carbon monoxide, carbon dioxide.

Advice for firefighters

Special protective actions for fire-fighters: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for fire-fighters: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6 - Accidental Release Measures

Personal Precautions, Protective Equipment and Emergency Procedures:

For non-emergency personnel: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

For emergency responders: If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

SAFETY DATA SHEET

Product Name: Finish – Dishwasher Freshener – Lemon and Lime

HEALTH · HYGIENE · HOME

Environmental Precautions: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities.

Methods and Material for Containment and Cleaning Up:

Small spill: Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Large spill: Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor.

Reference to Other Sections: See Section 1 for emergency contact information

See Section 8 for information on appropriate personal protective equipment

See Section 13 for additional waste treatment information

Section 7 - Handling and Storage

Precautions for safe handling

Protective measures: Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Avoid release to the environment. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

Advice on general occupational hygiene: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, including any incompatibilities

Storage: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

Do not store above the following temperature: 40°C

Do not store below the following temperature: -15°C

Recommended Storage Temperature for up to 6 weeks: 5 to 25°C

Recommended Storage Temperature for over 6 weeks: 5 to 25°C

Specific end use(s)

Recommendations : Consumer uses: Private households (= general public = consumers)

Industrial sector specific solutions: Not available.

Section 8 - Exposure Controls and Personal Protection

The following Australian Standards will provide general advice regarding safety clothing and equipment:

Respiratory equipment: **AS/NZS 1715**, Protective Gloves: **AS 2161**, Occupational Protective Clothing: AS/NZS 4501 set 2008, Industrial Eye Protection: **AS1336** and **AS/NZS 1337**, Occupational Protective Footwear: **AS/NZS2210**.

SWA Exposure Limits

TWA (mg/m³)

STEL (mg/m³)

Exposure limits have not been established by SWA for this product.

No special equipment is usually needed when occasionally handling small quantities. The following instructions are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems.

Engineering Controls Ventilation: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Individual protection measures

Hygiene Measures: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace.

SAFETY DATA SHEET

Product Name: Finish – Dishwasher Freshener – Lemon and Lime

HEALTH · HYGIENE · HOME

Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Skin protection:

Hand protection: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

Body Protection: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection: Use a properly fitted, particulate filter respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Environmental exposure controls: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Section 9 - Physical and Chemical Properties:

Physical Description & colour:	Green or yellow liquid.
Odour:	Characteristic fragrance.
pH:	No data.
Freezing/Melting Point:	No specific data. Liquid at normal temperatures.
Boiling Point:	Not available.
Flash Point:	79°C (Closed Cup)
Volatiles:	No data.
Vapour Pressure:	0.04 kPa at room temperature.
Vapour Density:	Not applicable.
Relative density:	0.9 at 20°C.
Water Solubility:	No data.
Volatility:	No data.
Odour Threshold:	No data.
Evaporation Rate:	Not applicable.
Coeff Oil/water Distribution:	No data
Viscosity:	Not applicable.
Autoignition temp:	No data.
Explosive Properties:	Not explosive.
Oxidising Properties:	Not an oxidiser.

Section 10 - Stability and Reactivity

Reactivity: This product is unlikely to react or decompose under normal storage conditions. However, if you have any doubts, contact the supplier for advice on shelf life properties.

Conditions to Avoid: None known.

Incompatibilities: No particular Incompatibilities.

Fire Decomposition: Combustion forms carbon dioxide, and if incomplete, carbon monoxide and possibly smoke. Water is also formed. Carbon monoxide poisoning produces headache, weakness, nausea, dizziness, confusion, dimness of vision, disturbance of judgment, and unconsciousness followed by coma and death.

Polymerisation: This product will not undergo polymerisation reactions.

SAFETY DATA SHEET

Product Name: Finish – Dishwasher Freshener – Lemon and Lime

HEALTH · HYGIENE · HOME

Section 11 - Toxicological Information

Acute toxicity

Product/Ingredient Name	Result	Species	Dose	Exposure
Octanal	LD ₅₀ Dermal	Rabbit	5207 mg/kg	
	LD ₅₀ Oral	Rat	4616 mg/kg	
3a,4,5,6,7,7a-hexahydro-4,7-methanoinden-6-yl acetate	LD ₅₀ Dermal	Rabbit	>5000 mg/kg	
	LD ₅₀ Oral	Rat	4300 mg/kg	
Nerol	LD ₅₀ Dermal	Rabbit	>5000 mg/kg	
	LD ₅₀ Oral	Rat	4500 mg/kg	
Nopyl acetate	LD ₅₀ Oral	Rat	3 g/kg	

Acute toxicity Estimates: Not available.

Irritation/Corrosion:

Product/Ingredient Name	Result	Species	Score	Exposure	Observation
Decanal	Skin – mild irritant	Rabbit		24 hr 500 mg	
	Skin – severe irritant	Rabbit		24 hr 14.4 µg	
Octanal	Eyes – mild irritant	Rabbit		100 mg	
	Eyes – severe irritant	Rabbit		0.5 mL	
	Skin – mild irritant	Human		128240 ppm	
	Skin – mild irritant	Rabbit		24 hr 500 mg	
	Skin – moderate irritant	Rabbit		0.5 mL	
3a,4,5,6,7,7a-hexahydro-4,7-methanoinden-6-yl acetate	Eyes – moderate irritant	Rabbit		6.25%	
	Skin – mild irritant	Rabbit		100%	
	Skin – moderate irritant	Rabbit		24 hr 500 mg	
	Skin – mild irritant	Rabbit		4 hr 100%	
Nerol	Eyes – moderate irritant	Rabbit		0.1 mL	
	Skin – moderate irritant	Rabbit		24 hr 500 mg	
Nopyl acetate	Skin – mild irritant	Rabbit		24 hr 500 mg	

Inhalation: No known significant effects or critical hazards.
Skin Contact: No known significant effects or critical hazards.
Eye Contact: No known significant effects or critical hazards.
Ingestion: No known significant effects or critical hazards.

Sensitisation: No known effect according to our database.
Mutagenicity: No known effect according to our database.
Reproductive toxicity: No known effect according to our database.
Teratogenicity: No known effect according to our database.
Specific target organ toxicity (single exposure): No known effect according to our database.

Specific target organ toxicity (repeated exposure):

No known effect according to our database.

Aspiration hazard: Distillates (petroleum), hydrotreated light: ASPIRATION HAZARD – Category 1.

SAFETY DATA SHEET

Product Name: Finish – Dishwasher Freshener – Lemon and Lime

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure

Potential immediate effects: Not available.

Potential delayed effects: Not available.

Long term exposure:

Potential immediate effects: Not available.

Potential delayed effects: Not available.

Section 12 - Ecological Information

Ecotoxicity:

Product/Ingredient Name	Result	Species	Exposure
Distillates (petroleum), hydrotreated light	Acute LC ₅₀ 2.2 mg/L fresh water	Fish – Lepomis macrochirus	4 days

Persistence and Degradability: No known effect according to our database.

Bioaccumulative Potential:

Product/Ingredient Name	LogPow	BCF	Potential
3a,4,5,6,7,7a-hexahydro-4, 7-methanoinden-6-yl acetate	0.9242	35	Low
Nerol	3.47		Low

Mobility in Soil: Not available

Other Adverse Effects: No known significant effects or critical hazards.

Section 13 - Disposal Considerations

Dispose of small quantities and empty containers by wrapping with paper and putting in garbage. For larger quantities, if recycling or reclaiming is not possible, use a commercial waste disposal service.

Waste Treatment Methods:

Product:

Methods of Disposal: Waste must be disposed of in accordance with federal, state and local environmental control regulations. Waste packaging should be recycled.

Hazardous Waste: The classification of the product may meet the criteria for a hazardous waste.

Packaging:

Methods of Disposal: The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

Special Precautions: This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Section 16 - Other Information

This SDS contains only safety-related information. For other data see product literature.

Acronyms:

ADG Code	Australian Code for the Transport of Dangerous Goods by Road and Rail (7 th edition)
AICS	Australian Inventory of Chemical Substances
SWA	Safe Work Australia, formerly ASCC and NOHSC
CAS number	Chemical Abstracts Service Registry Number
Hazchem Code	Emergency action code of numbers and letters that provide information to emergency services especially firefighters
IARC	International Agency for Research on Cancer
NOS	Not otherwise specified
NTP	National Toxicology Program (USA)
R-Phrase	Risk Phrase
SUSMP	Standard for the Uniform Scheduling of Medicines & Poisons
UN Number	United Nations Number

Creation Date: **September, 2016**

This version issued: **April, 2017** and is valid for 5 years from this date.

Revision comments: First issue to GHS standard mentioned below.

To the best of our knowledge, the information contained herein is accurate. However, neither the above-named supplier, nor any of its subsidiaries, assumes any liability whatsoever for the accuracy or completeness of the information contained herein.

Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.

Please read all labels carefully before using product.

This SDS is prepared in accord with the SWA document "Preparation of Safety Data Sheets for Hazardous Chemicals - Code of Practice" (Feb 2016)
