

# SAFETY DATA SHEET

Product Name: Finish All in 1 Max Gel

## Section 1 - Identification of The Material and Supplier

**Product Name:** Finish Max in 1 Concentrated Gel  
**Product Type:** Detergent for use in domestic automatic dishwashers.  
**SDS Number:** D8168834-v4.1  
**Formulation No:** EU: Fresh: #8102368; Lemon: #8102371;  
**Product Use:** Consumer: Private households (general public).

### Supplier Details:

**Australia:** Reckitt Benckiser (Australia) Pty Limited  
ABN: 17 003 274 655  
680 George Street, Sydney NSW 2000  
Tel: +61 2 9857 2000

**New Zealand:** Reckitt Benckiser (New Zealand) Limited  
2 Fred Thomas Drive, Takapuna, Auckland, New Zealand 0622  
Tel: +64 9 484 1400

**Poisons Information Centre:** Australia: Phone 131 126  
New Zealand: 0800 764 766 or 0800 POISON

## Section 2 - Hazards Identification

### Statement of Hazardous Nature

This product is classified as: Not hazardous according to the criteria of SWA.  
Not a Dangerous Good according to Australian Dangerous Goods (ADG) Code, IATA or IMDG/IMSBC criteria.

### GHS Signal word: NONE

#### PREVENTION

- P103: Read label before use.
- P102: Keep out of reach of children.
- P101: If medical advice is needed, have product container or label at hand.

#### DISPOSAL

P501: Dispose of small quantities and empty containers by wrapping with paper and putting in garbage. For larger quantities, if recycling or reclaiming is not possible, use a commercial waste disposal service.

## Emergency Overview

**Physical Description & Colour:** Viscous liquid, either blue, yellow or colourless.

**Odour:** Characteristic fragrance.

**Major Health Hazards:** None.

## Section 3 - Composition/Information on Ingredients

Ingredients	CAS No	Conc, %
Tetrasodium (1-hydroxyethylidene) bisphosphonate	3794-83-0	<2.5
Subtilisin	9014-01-1	<1.0
Various non-hazardous ingredients	secret	to 100

This is a commercial product whose exact ratio of components may vary slightly. Minor quantities of other non hazardous ingredients are also possible.

## Section 4 - First Aid Measures

### General Information:

You should call The Poisons Information Centre if you feel that you may have been poisoned, burned or irritated by this product. The number is 13 1126 from anywhere in Australia (0800 764 766 in New Zealand) and is available at all times. Have this SDS with you when you call.

**Inhalation:** Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

# SAFETY DATA SHEET

Product Name: Finish All in 1 Max Gel

**Skin Contact:** Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

**Eye Contact:** Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

**Ingestion:** Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

**Protection of first-aiders:** No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

## **Most important symptoms and effects, both acute and delayed**

### **Potential acute health effects**

**Inhalation :** Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.

**Ingestion :** No known significant effects or critical hazards.

**Skin contact :** No known significant effects or critical hazards.

**Eye contact :** No known significant effects or critical hazards.

### **Over-exposure signs/symptoms**

**Eye contact :** No specific data.

**Skin contact :** No specific data.

**Ingestion :** No specific data.

**Inhalation** No specific data.

### **Indication of any immediate medical attention and special treatment needed**

**Notes to physician:** Treat symptomatically.

## **Section 5 - Fire Fighting Measures**

### **Extinguishing media**

**Suitable extinguishing media:** Use an extinguishing agent suitable for the surrounding fire.

**Unsuitable extinguishing media:** None known

### **Special hazards arising from the substance or mixture**

**Hazards from the substance or mixture:** Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.

**Hazardous thermal decomposition products:** Decomposition products may include carbon monoxide, carbon dioxide, and oxides of nitrogen, sulphur, phosphorus and metals.

### **Advice for firefighters**

**Special protective actions for fire-fighters:** Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

**Special protective equipment for fire-fighters:** Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## **Section 6 - Accidental Release Measures**

### **Personal Precautions, Protective Equipment and Emergency Procedures:**

**For non-emergency personnel:** No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

**For emergency responders:** If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

**Environmental Precautions:** Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

### **Methods and Material for Containment and Cleaning Up:**

**Small spill:** Move containers from spill area. Dilute with water and mop up, or alternatively, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

# SAFETY DATA SHEET

Product Name: Finish All in 1 Max Gel

HEALTH · HYGIENE · HOME

**Large spill:** Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor.

**Reference to Other Sections:** See Section 1 for emergency contact information  
See Section 8 for information on appropriate personal protective equipment  
See Section 13 for additional waste treatment information

## Section 7 - Handling and Storage

### Precautions for safe handling

**Protective measures:** Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Avoid release to the environment. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

**Advice on general occupational hygiene:** Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

### Conditions for safe storage, including any incompatibilities

**Storage:** Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

**Do not store above the following temperature:** 40°C

**Do not store below the following temperature:** -15°C

**Recommended Storage Temperature for up to 6 weeks:** 5 to 25°C

**Recommended Storage Temperature for over 6 weeks:** 5 to 25°C

**Specific end use(s)**

**Recommendations : Consumer uses: Washing and cleaning products (including solvent based products)**

**Industrial sector specific solutions: Not available.**

## Section 8 - Exposure Controls and Personal Protection

The following Australian Standards will provide general advice regarding safety clothing and equipment:

Respiratory equipment: **AS/NZS 1715**, Protective Gloves: **AS 2161**, Occupational Protective Clothing: **AS/NZS 4501 set 2008**, Industrial Eye Protection: **AS1336** and **AS/NZS 1337**, Occupational Protective Footwear: **AS/NZS2210**.

**SWA Exposure Limits**

**TWA (mg/m<sup>3</sup>)**

**STEL (mg/m<sup>3</sup>)**

Exposure limits have not been established by SWA for this product.

No special equipment is usually needed when occasionally handling small quantities. The following instructions are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems.

**Engineering Controls Ventilation:** Good general ventilation should be sufficient to control worker exposure to airborne contaminants..

### Individual protection measures

**Hygiene Measures:** Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Eye/face protection:** Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

# SAFETY DATA SHEET

Product Name: Finish All in 1 Max Gel

## Skin protection:

**Hand protection:** Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

**Body Protection:** Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Other skin protection:** Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Respiratory protection:** Use a properly fitted, particulate filter respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

**Environmental exposure controls:** Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## Section 9 - Physical and Chemical Properties:

<b>Physical Description &amp; colour:</b>	Viscous liquid, either blue, yellow or colourless.
<b>Odour:</b>	Characteristic fragrance.
<b>pH:</b>	8.5-9.5
<b>Freezing/Melting Point:</b>	No specific data. Liquid at normal temperatures.
<b>Boiling Point:</b>	Not available.
<b>Flash Point:</b>	>100°C (Closed Cup)
<b>Volatiles:</b>	No data.
<b>Vapour Pressure:</b>	No data.
<b>Vapour Density:</b>	Not applicable.
<b>Relative density:</b>	1.14-1.20 at 20°C.
<b>Water Solubility:</b>	Soluble.
<b>Volatility:</b>	No data.
<b>Odour Threshold:</b>	No data.
<b>Evaporation Rate:</b>	Not applicable.
<b>Coeff Oil/water Distribution:</b>	No data
<b>Viscosity:</b>	Dynamic: 2000-4000 mPa.s at room temperature.
<b>Autoignition temp:</b>	No data.
<b>Explosive Properties:</b>	Not explosive.
<b>Oxidising Properties:</b>	Not an oxidiser.

## Section 10 - Stability and Reactivity

**Reactivity:** This product is unlikely to react or decompose under normal storage conditions. However, if you have any doubts, contact the supplier for advice on shelf life properties.

**Conditions to Avoid:** None known.

**Incompatibilities:** No particular Incompatibilities.

**Fire Decomposition:** Combustion forms carbon dioxide, and if incomplete, carbon monoxide and possibly smoke. Water is also formed. Carbon monoxide poisoning produces headache, weakness, nausea, dizziness, confusion, dimness of vision, disturbance of judgment, and unconsciousness followed by coma and death. May also form oxides of nitrogen, sulphur, phosphorus and metals.

**Polymerisation:** This product will not undergo polymerisation reactions.

# SAFETY DATA SHEET

Product Name: Finish All in 1 Max Gel

## Section 11 - Toxicological Information

### Acute toxicity

Product/Ingredient Name	Result	Species	Dose	Exposure
(1-hydroxyethylidene) biphosphonic acid, sodium salt	LD <sub>50</sub> Oral	Rat	1100 mg/kg	

### Acute toxicity Estimates:

Route	ATE value
Oral	82862.5 mg/kg

**Irritation/Corrosion:** No known effect according to our database.

**Inhalation:** Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.

**Skin Contact:** No known significant effects or critical hazards.

**Eye Contact:** No known significant effects or critical hazards.

**Ingestion:** No known significant effects or critical hazards.

**Sensitisation:** No known effect according to our database.

**Mutagenicity:** No known effect according to our database.

**Reproductive toxicity:** No known effect according to our database.

**Teratogenicity:** No known effect according to our database.

**Specific target organ toxicity (single exposure):** No known effect according to our database.

**Specific target organ toxicity (repeated exposure):** No known effect according to our database.

**Aspiration hazard:** No known effect according to our database.

### Delayed and immediate effects and also chronic effects from short and long term exposure

#### Short term exposure

**Potential immediate effects:** Not available.

**Potential delayed effects:** Not available.

#### Long term exposure:

**Potential immediate effects:** Not available.

**Potential delayed effects:** Not available.

## Section 12 - Ecological Information

### Ecotoxicity:

Product/Ingredient Name	Result	Species	Exposure
(1-hydroxyethylidene) biphosphonic acid, sodium salt	Acute EC <sub>50</sub> >170 mg/L fresh water	Daphnia – Daphnia magna	96 hr
	Acute LC <sub>50</sub> >100 mg/L fresh water	Fish – Salmo gairdneri – adult	96 hr

**Persistence and Degradability:** No known effect according to our database.

### Bioaccumulative Potential:

Product/Ingredient Name	LogP <sub>ow</sub>	BCF	Potential
(1-hydroxyethylidene) biphosphonic acid, sodium salt	-3.5	71	Low

**Mobility in Soil:** Not available

**Other Adverse Effects:** No known significant effects or critical hazards.

## Section 13 - Disposal Considerations

Dispose of small quantities and empty containers by wrapping with paper and putting in garbage. For larger quantities, if recycling or reclaiming is not possible, use a commercial waste disposal service.

# SAFETY DATA SHEET

Product Name: Finish All in 1 Max Gel

## Waste Treatment Methods:

### Product:

**Methods of Disposal:** Waste must be disposed of in accordance with federal, state and local environmental control regulations. Waste packaging should be recycled.

**Hazardous Waste:** The classification of the product may meet the criteria for a hazardous waste.

### Packaging:

**Methods of Disposal:** The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

**Special Precautions:** This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

## Section 14 - Transport Information

	ADG	IMDG	IATA
UN Number	None allocated	None allocated	None allocated
UN Proper Shipping Name	None allocated	None allocated	None allocated
